## PURSuing A FULFILLING CAREER AFTER A GAP YEAR: TOP OPTIONS FOR UNDERGRADUATE STUDENTS IN INDIA

Taking a career gap after completing your undergraduate degree is not uncommon in India. Whether it's for personal reasons, further education, or exploring different opportunities, many students find themselves in this situation. The key is to make the most of your time and choose a career path that aligns with your interests and goals. In this article, we'll explore some promising career options for undergraduate students in India looking to restart their careers after a gap year.

### Digital Marketing

In today's digital age, the demand for digital marketing professionals is on the rise. A gap year can be an excellent opportunity to acquire digital marketing skills through online courses and certifications. With the right knowledge and experience, you can work as a digital marketing specialist, social media manager, or content strategist.

### Data Analysis

Data analysis is a rapidly growing field with a strong job market in India. Undergraduate students can take online courses in data analytics, machine learning, and statistics to build their skills. A career as a data analyst or business intelligence analyst awaits those who excel in this field.

### Content Writing

If you have a passion for writing, a career in content writing might be perfect for you. Many companies and agencies hire content writers for blog posts, website content, and marketing materials. You can build your portfolio during your gap year and secure freelance or full-time positions afterward.

### Graphic Design

Graphic design is another creative and in-demand career choice. Learning graphic design software and honing your design skills during your gap year can open doors to opportunities as a graphic designer or UI/UX designer.

### Web Development

Web development skills are highly sought after in today's tech-driven world. Learning languages like HTML, CSS, and JavaScript can help you become a web developer. You can work as a freelancer or join a web development company.

### Entrepreneurship

If you have a unique business idea and the entrepreneurial spirit, consider starting your own business. Your gap year can be used to research, plan, and launch your venture. India is a growing hub for startups, and your innovative idea could take off.

### Public Sector Jobs

Government jobs in India provide stability and a wide range of career opportunities. Many government exams are conducted annually for various positions, including civil services, banking, and public administration. Your gap year can be dedicated to preparing for these competitive exams.

### Teaching and Education

If you have a passion for teaching and knowledge-sharing, consider a career in education. You can pursue teaching roles in schools, coaching centers, or even online tutoring platforms.

### Conclusion

A career gap doesn't have to be a setback; it can be a stepping stone to a more fulfilling career. Undergraduate students in India have a plethora of options to choose from during their gap year. Whether you opt for a career in digital marketing, data analysis, content writing, or any other field, the key is to invest your time and effort wisely to acquire the necessary skills and experiences. Your gap year can be a transformative period that sets you on a path to a successful and rewarding career.

## DHARUN HAATAN HAATH DEVUYA EK BIJYALA SAATH Time to Take a Bigger Empowerment Step

*Gleason Barretto, Old Kurla*

**E**ducation is one of the key areas where we want to see our community grow. We need to create awareness about various options for Education and highlight the professions which our community can opt for. It's great to see more community youth opting for higher studies and even studies abroad and also taking up professions. MGPs Shikshan is doing its bit to create awareness about the importance of Education and the options the youth of today have in store. We now plan to connect with the experts and experienced individuals in the Education sector to help us create a plan for the future.

**M**usic and food native to our community is rich and has great potential to showcase our community on the world map. The Music industry has some gems from our community who have made it big and East Indians are known to be talented musicians. Efforts need to be taken to guide and mentor talented community members to opt for music as a career option. East Indian Food can be taken to great heights and if all our well known chefs come together they could curate an authentic menu. Food has already started in a big way and needs to get more momentum with newer start ups on this space with all kind of options be it dine in, take away restaurants or even packaged foods.

**P**rotection of our Gaothans also stays a priority to give it the Indigenous identity. Giving Gaothans a perfect heritage look should be the target. East Indian Gaothans need to be restored and revived to it's original glory. Families need to do their bit to ensure their Gaothan houses are preserved. Lawyers from our community need to come forward and provide the much needed legal assistance. The power to manage the Gaothan should remain with the East Indian Community and the Indigenous People should be given the power to decide the future of the Gaothans. A Special Gaothan Council or Panchayat should be empowered to take decisions for the betterment of the Gaothans.

**O**pportunities to grow as a community are plenty and if we are united we could move mountains. While we will have a few critics, we need to focus more on our goals and move forward as One Community. Promoting entrepreneurship can give our community the much needed business mindset. Mentors are a necessity to guide our community to run businesses, big or small. The business fraternity sees a marginal increase but needs a much bigger boost to make our community self reliant. A Business model needs to be created which will help interested community members to take the business route

**W**e can take our community to greater heights if we have the will and the interest to do so. If we cannot support a community member, we should atleast not pull them down. If all of us do our little bit there is no way that the community will face any challenges. The East Indian Baazar was one big initiative by MGP to promote community run small businesses. MGPs Mobaikar Gaothan Store is the next step and we hope to see it grow with the much needed support from our people. A Business network will need to be formed to create a robust support model. MGP plans to connect with like-minded community members to take this plan forward.

**E**ncouraging and appreciating those who make our community proud is what creates a positive atmosphere. The East Indian Community Awards was one important initiative to fulfil this objective. There has been awareness across the community and MGP has managed to identify hidden talent and expertise. I'm the current and upcoming edition of the awards we plan to have more categories to appreciate entrepreneurs and professionals. We plan to add this up with special mentions and articles in Gaothan Voice.

**R**ising up to the situation remains one of the most important need for our community today. Community members and groups need to realise that they need not depend much on the political and religious authorities but instead plan to do things on their own. Depending on the authorities may be a waste of time and we better put our time to good use by taking support of our potential community members. We need to send a strong message that we don't have any expectations from the leaders. We need to show that we have the capacity and capability to do things on our own. Empowerment is all about doing what is required on our very own with confidence and commitment. Let's together make this dream come true and empower our community to reach greater heights.

## CHICKEN LIVER IN GREEN MASALA

1/2 kg chicken liver  
1/2 kg chicken gizzard  
To be ground to a fine paste

### Ingredients:

3 cups fresh coriander  
10 flakes garlic  
6 green chillies dark green spicy  
1 tsp turmeric powder  
Salt to taste  
3tbsp oil  
2 Tbsp Vinegar or lime

### Method:

Marinate the chicken liver and gizzard with the above group paste and leave it for an hour or so. Take a deep bottom vessel add the marinated liver and gizzard, also add the oil.
